

26th May 2015

Dear Parents

Firstly the good news! In response to our recent letter looking for sponsorship for our new computers, we are extremely happy to report that we have now got funding for 7 full computers. This is absolutely amazing and we thank those parents who have been so generous.

We did say in that letter that we would give you an opportunity to contribute smaller amounts to our fund raising effort, bearing in mind that many of you are not in the position financially to sponsor a full or part computer.

Our Student Council has come up with a number of fundraising ideas. We have a very active and competent Student Council here in St. Attracta's Senior School and their latest idea is a great one. Each class is going to be given a giant computer keyboard. The children will then be asked to "buy" a key (or two) at a cost of €10 per key. This will give children "ownership" of a key so that when our computer room is up and running next September, children will be able to identify the key they have bought and feel that they have contributed in no small way to bringing our computer room up to a state of the art facility which we will all be proud of.

The Student Council will speak to the children at Assembly and in their individual classes about this venture and we hope it will be well supported. It makes us so proud as a school to have our young people so full of good ideas and willing to take on responsibility for making their school a better place.

Look out for their other brilliant (and fun) ideas coming up before the summer holidays!

Yours sincerely,

---
